Jesus and NeurodiVentures Some Questions

What gave me the idea to make this zine sheet?

"The 'Jesus as lone hero' frame contradicts both the history and the texts themselves.

Judea at the time was full of rebellion movements, protest groups, and critiques of Temple authority.

...

The gospels repeatedly show Jesus surrounded by others.

- He sends people out in pairs.
- He relies on hospitality
- He eats with groups.
- He teaches crowds, not individuals.

This is not the behaviour of a solitary saviour. It tells us of early **networked organising**."

Questions: 1.) Did Jesus build an early form of neurodiVenture? (definition: https://autcollab.org/community/neurodiventures/)
2.) Did the Empire extract from, usurp, and transform into a shadow of its former self, an early form of neurodiVenture?
3.) What can we do to stop the empires of today from extracting from, and usurping, whatever we build?
